Eduhouse Oy, 2026

SUMMARY

Passionate Full Stack Developer with a unique background in Electronic Engineering and Renewable Energy, bridging engineering and modern software development. I build secure, scalable, and intuitive web applications using React, Node.js, Python, and cloud technologies.

With hands-on experience in quality assurance, cybersecurity, and UI/UX design, I specialize in transforming complex ideas into beautifully crafted, user-centered products that businesses can trust.

EXPERIENCE

- ICT Trainee (Hybrid)** Jun 2026–Present
Cyber Security Finland
- Redesigned the company’s live website using Astro, HTML, CSS, JavaScript
 - Rebuilt a key section as an interactive scroll carousel, added a new compliance trust bar
 - Improved accessibility, UX, and site performance while applying security best practices
- Senior Quality Control Executive** 2016–2019
HappyFresh | Malaysia
- Managed QA processes for e-commerce content, achieving 100% data accuracy
 - Promoted from QC to Senior QC Executive within 2 years
- Content Executive** Jun 2015–Mar 2016
Shopee | Malaysia
- Reviewed and validated digital content, improving accuracy across the platform
- Research Assistant** Jun 2014–Sep 2015
National University of Malaysia (UKM) | Malaysia
- Master’s-level research on thermoelectric power generation; awarded FRGS grant, published 3 papers
- Commercial Expert** Apr 2009–Aug 2013
Iman Electronic | Iran
- Managed customer communication and supplier negotiations for international electronics trade
 - Prepared technical and commercial documentation for cross-border logistics

PROJECTS

- Cyber Security Finland – Website Redesign (Featured)** 2026–Present
- Full redesign of a live company website as part of my ICT traineeship – modern gradient-driven visual identity, interactive components, and a new compliance section.
- HR Management System** 2025
- Full-stack HR management application built with React and Node.js.
- Personal Portfolio Website** 2025–Present
- Modern portfolio built with React, deployed to a live hosting environment.
- ABC OF MEDIA Website** 2025
- WordPress/PHP website for a media literacy initiative, including custom page templates and content structure.
- Pancake Order System** 2025
- Interactive ordering system built in vanilla JavaScript, handling dynamic pricing and order summaries.
- Cafe Website UI Design** 2025
- End-to-end UI/UX design in Figma, from wireframes to a clickable prototype.
- Tech News Website** 2025
- WordPress/PHP based tech news website with custom content layouts.
